New for January 2021

FDP Conversions

To start off 2021 we have made a new puzzle that requires students to convert between fractions, decimals and percentages. They must consider each statement and work out the biggest integer that will make the statement true. There are two versions, one slightly harder and containing some recurring decimals.

$\frac{\square}{45} < 1$

$\square\% < \frac{19}{100}$

Interactive Prisms Tool

We have a new interactive tool to help students to visualise various types of prisms. The dynamic view of each prism can be altered with the following modes
