

ROYAL COLLEGE OF EDUCATION ANDRESEARCH FOR WOMEN
A REPORT OF TALK ON E-WASTE MANAGEMENT

NAME OF THE EVENT: E-WASTE MANAGEMENT

DATE:12/04/24

VENUE: MULTIPURPOSE HALL

NO OF PARICIPANTS: 25

RESOURCE PERSON: MS. MARY MUKHERJEE AND HER TEACH INDIA TEAM

OBJECTIVES:

Awareness:

To raise awareness about the environmental and health impacts of electronic waste,

To highlight the importance of proper disposal methods,

To promote strategies for reducing, reusing, and recycling e-waste to minimize its negative effects on the planet and human health.

To encourage students to adopt recycling and responsible disposal methods of e-waste.

REFLECTION:

The recent talk hosted Ms. Mary Mukherjee and her Teach India Team on E-waste Management. The talk provided a comprehensive view of the challenges and solutions associated with handling electronic waste. Throughout the talk, several key points emerged, shedding light on the urgent need for sustainable practices in this realm. Initially, the talk underscored the alarming scale of the e-waste problem, emphasizing the exponential growth of discarded electronic devices worldwide. With the rapid pace of technological advancements, the lifespan of electronic gadgets is shrinking, leading to a surge in obsolete devices being disposed off improperly.

Moreover, the environmental and health implications of mishandling e-waste were thoroughly addressed. Participants also highlighted the harmful chemicals and heavy metals present in electronic devices, which can contaminate soil, water, and air if not disposed of correctly. One of the most compelling aspects of the talk was the emphasis on individual responsibility in e-waste management.

In conclusion, the Teach India talk on e-waste management provided valuable insights into the multifaceted nature of the issue and the collaborative efforts required to address it effectively. By

raising awareness, fostering innovation, and promoting responsible consumer behavior, we can collectively work towards a more sustainable future, where electronic waste is managed responsibly, minimizing its impact on the environment and public health.

LEARNING OUTCOMES ACHIEVED:

The students gain knowledge about E-Waste and its Management

The students learn the process of E-Waste Management

The students understand the importance of E-Waste Management for healthy environment.

FEEDBACK OF THE STUDENTS:

Riya: It was very informative and inspired me to take action in e-waste management.

Manisha: The talk shed light on proper disposal of e-waste which is important to protect the environment and human being from its ill effects.

Atiya: The talk motivated me to become more proactive in advocating for e-waste management in my community.
