MIRA ROAD**

REPORT ON PANEL DISCUSSION

Date:-18/01/23

Venue: - Multipurpose room

Panel discussion is a small group discussion .The panel discussion requires active discussion among the participant it's a face to face discussion involving team work.

It is special type of discussion where limited members of people discuss in front of the large members of people/ audience. This is provide factual information, ideas and opinions about a particular topic.

Objective of panel discussion: -

- To know student's perspective about ideal curriculum.
- To broaden the outlook of student's towards different types of curriculum.
- To analyze a problem from different angles
- To provide solution of certain problem

The department of B.Ed. has organized a panel discussion on the topic "What I want to learn and how do I want to learn". The main focus of the panel discussion was to know about perspectives of learners regarding learning and methodology to be adopted by the future teachers in context to different curriculums. In this panel discussion school students of 5 reputed schools of Mira Road were taken as the panelist who put forth their views regarding various curricular and co-curricular activities by answering various question related to them. The day began with Morning Prayer and brief introduction about student's part of panel discussion. Students were called in pair form five different school named RBK International School, St. Thome International School, Royal English School, Royal Urdu Girls School, and SVPV international School. Ms Vedika and Alisha students of F.Y. B.Ed. were asked to take interview of all ten students. They have prepared many questions regarding school subjects, their likes and dislikes, courses preferred and various other curricular and co-curricular activities etc. The students were confident while answering all the questions and participated in panel discussion with full enthusiasm and interest. They put forth their opinions and views about their preferences of subjects and methodologies to be adopted in teaching to make an effective teaching learning process and prepared ideal curricular for rural and urban areas and also different school boards.

THE POST LEARNING OUTCOMES OF THE PANEL DISCUSSION:-

- Future teachers came to know about learner's perspective on learning and methodology.
- B.Ed. Students came to know about different views of students related to changes in the curriculum.
- B.Ed. students came to know about preferences of learners regarding various curricular and co-curricular activities as part of school curriculum.

Overall, the event have been contributed to the personal and professional growthof the students.
