REPORT ON UPEDUCATORS

OBJECTIVES

- To enhance the ICT skills of students
- To make them aware of latest requirements of making E-portfolios

The Royal College of Education and Research for Women had organized an online workshop by Google Upeducators on developing a professional website for teaching and learning for the students on 19th of November'2022. The session was conducted to enhance the quality of learning and teaching for the students as well enhancing ICT skills of students.

Adoption of technology in the field of education has been happening since decades, thus to help students keep pace with changing times a workshop was organized on website building for the students of S.Y.B.Ed. MS. Sonam Chavan from Upeducators conducted an online session through zoom meeting wherein she taught how to develop a professional website for teaching and learning. In order to teach modern students, the teachers need to be adaptable and flexible towards the modern methods of learning and to develop the required skill sets. As well as it is important for future teachers to be digitally accessible to recruiters. This was the main objective of the session wherein at the end each of us learned something new about website building. Later the session ended with a quiz wherein the top scorer was given the scholarship from upeducators to do the courses which was given to Ms. Rupa of S.Y. B.Ed.

LEARNING OUTCOMES

- Students understood the importance of website building and its role in the real world.
- Students gained knowledge about the weightage of website in a resume and different ways to enhance their resume.
- Students become aware about ICT skills required for website creation.
- Students learned about various technological skills required for website creation for placement purposes.
