ROYAL COLLEGE OF EDUCATION AND RESEARCH FOR WOMEN

REPORT ON ORIENTATION PROGRAM ON 'GREEN CLUB':

SMALL EFFORTS, BIG EFFECTS.

NAME OF PROGRAM: ORIENTATION PROGRAM ON 'GREEN CLUB' SMALL EFFECTS, BIG EFFECTS.

DATE: 11 JANUARY 2024

VENUE: MUN AUDITORIUM

TIME: 10:30 am to 11:30 am

NO OF PARTICIPANTS: Approximately 80

RESOURCE PERSON: Asst. Prof. Abdul Chaudhary

COLLABORATIVE/NON-COLLABORATIVE: It was collaborated with Royal College of Art, Science, and Commerce for youth engagement and water stewardship.

COORDINATOR: ASSISTANT PROFESSOR: - MS MANDRITA MITRA

OBJECTIVES:

Awareness: To increase awareness regarding water usage in urban and rural areas and demonstrate how students can play a role in water conservation through the use of the "WhyWaste?" app.

Skills Development: Attendees will acquire skills in promoting water conservation in both urban and rural settings, coupled with practical training on utilizing the "WhyWaste?" app to participate in efforts to water actively

REFLECTION: In the program, we learned about things that use a lot of water, especially mobile phones. We discovered various water-saving methods and discussed how, as students, we can contribute to water conservation. The speaker explained why water is becoming scarce nowadays, especially in India where we heavily rely on groundwater. The session provided valuable information on how we can help society and take individual actions to save water. Our college Green Club collaborated with the Green Club to support a government initiative for water conservation. They introduced an app that measures water savings and teaches us small steps to reduce water wastage.

LEARNING OUTCOMES ACHIEVED:

The students register for 'Why Waste' app

The students learn to use water judiciously

The students develop attitude, skills and values towards water sustainability.

FEEDBACK FROM THE STUDENTS

Manisha: - Insightful session, great collaboration for water conservation.

Vedika: - Informative session, shedding light on water conservation methods and the importance of individual efforts, with commendable collaboration between our college and the green club.

Fatima: - Enlightening session, fostering collaboration between our college and the green club, with practical insights into water conservation and the implementation of a helpful water-saving app.
