REPORT FOR INTERNSHIP (2022-2024)

Internship programme plays a vital role in grooming the student teachers in teaching profession. Through internships, student teachers gain classroom knowledge while also gaining an experimental experience in the workplace, allowing them to participate in a dynamic job market in a new era.

A school internship's purpose is to provide teaching resources for students. Making of lesson plans, preparing learning resources, planning and conducting activities, maintaining records and timetable, taking unit tests and analysing it; all are crucial to the internship. The creation and management of valuation instruments is carried out by student-teacher. Engagement that is sustained for an extended period. An internship at a school provides the student-teacher with practical experience. Teachers should possess a professional understanding of professional competence, skills, and attitudes, as well as a positive attitude toward learning and teaching. Internships allow them to gain experience in a field that they would like to pursue. In addition to providing an advantage in the application process, this prepares candidates for what to expect in their field and increases their confidence. The subject of networking.
