ROYAL COLLEGE OF EDUCATION AND RESEARCH FOR WOMEN

REPORT ON MISSION GREEN MUMBAI CLEANLINESS DRIVE

NAME OF THE PROGRAM: Mission Green Mumbai: Swachta Hi Seva

DAY & DATE: 02nd October, 2023

VENUE: General Hospital Premises, Jankalyan Nagar, Malad West.

TIME: 8.00 a.m. to 11.00 a.m.

NO. OF PARTICIPANTS: 30

RESOURCE PERSON: MR. SUBHAJIT MUKHERJEE

COLLABORATIVE/NON-COLLABORATIVE: Collaboration with the Subhajit Mukherjee Foundation. Mumbai's Per Person Tree Ratio is 1:4, One Plant for Every Four Persons. Their Mission is to bring up this ratio to 1:1 by Planting ONE CRORE+ sapling across Mumbai and its suburbs and helping them to be a mature tree.

COORDINATOR:
Asst. Professor: Ms. Mandrita Mitra
Asst. Professor: Ms. Joya Chaudhary

OBJECTIVES:
To plant more trees which can cause a balance in the city's ecosystem.
To increase green spaces by not only improving the city's aesthetics but also enhancing air quality and biodiversity.
To help us all by saving money, time and resources, so that we can enjoy life more fully and by making sure that future generations will have access to clean air and water.

REFLECTION:
Mr.Subhajit Mukherjee invited different colleges to participate in this activity and showed the participants the goodness of giving back. There were 13 different colleges invited to contribute in making India clean by taking some small steps, where volunteersdedicated themselves to cleaning and beautifying different areas by tackling challenges, such as removal of garbage, horticulture waste, construction debris and other waste matters. So, we were divided according to college group and were provided with polythene bags and were told to clean the hospital premises. We all took a great initiative in it and made a first step toward making India clean.As we moved ahead, Subhajit sir then guided us for 'Painting the

outside walls of hospital'. As there were 13 colleges, each of the colleges was allotted 5 brushes and 20ml cans of black colour in it. We were allotted to do the railings and likewise, we had rotated the brush to each of the 5 girls in our college and everyone got a chance to paint, and we completed the work on time. It was a great learning experience.

LEARNING OUTCOMES ACHIEVED:
The students created awareness regarding importance of clean and pollution free environment.
The students developed attitude to solve environmental issues through active participation.
The students understood Gandhian Philosophy aligned with cleanliness.

FEEDBACK OF THE STUDENTS:

Shama: -It became a pivotal event for all of us in shaping our attitudes and behaviours and making us responsible, for contributing to a cleaner and healthier society through the 'Swachh Bharat Mission'.

Sadaf: -The event was inspired by Gandhi's emphasis on cleanliness and hygiene as a fundamental aspect of personal and community life. It promotes the concept of sustainable living and the importance of preserving natural resources.

Asra: - It teaches how trees contribute to soil health, water conservation, and air purification, enhancing knowledge of ecosystem functions.
