- A) Problem-solving method
- B) Project method
- C) Deductive method
- D) Inductive method

Q. 5: apparatus is an apparatus that functions like the original apparatus but lesser in quality.

- A) Laboratory
- B) Improvised
- C) Scientific
- D) Common

Q.6- One of the main purposes of diagnostic assessment is to.....

- A) Monitor students learning progress during science instructions
- B) Assess learner's entry behaviour before teaching science
- C) Quantify achievement and to provide data for selection to the next stage in science education
- D) Find out reasons for student's persistent or recurring learning difficulties while learning science

Q. 7: The hard-applied disciplines amongst the following are

- A) Physiology, Mathematics, Recreation
- B) Accounting, Economics, Arts
- C) Sociology, Anthropology, Psychology
- D) Agriculture, Psychiatry, Dentistry

Q. 8: In the chapter on 'growth of plants', the students are asked to find out the 'effect of organic matter on the growth of beans'. Which type of science process skills would you develop through this type of learning experience?

- A) Classifying skills
- B) Measuring skills
- C) Predicting skills
- D) Integrated Process Skills

Q. 9: When a teacher utilizes the knowledge already familiar to the students, the teacher follows the maxim.....

- A) Whole to part
- B) Concrete to abstract
- C) Known to unknown
- D) Simple to complex

Q. 10: Which of the following methods is more scientific method?

- A) Lecture cum demonstration
- B) Problem solving
- C) Project method
- D) Inductive-deductive method

Q. 11: provide hands on experience with actual sources and material for study.

- A) Simulation
- B) Virtual lab
- C) Improvised apparatus
- D) Field Visit

Q. 12: Purpose of professional development is to 1. Explore, reflect on and develop one's own practice
2. Research and reflect on learner and their education.

- A) Statement 1 is true 2 is false
- B) Both the statements are false
- C) Statement 1 is false 2 is true
- D) Both the statements are true

Q. 13: Humanities include the following disciplines

- A) Geosciences, Life Sciences
- B) Communication Studies, Cultural Studies
- C) Sociology, Anthropology
- D) Economics, Demography

Q. 14: Which one of the following is the key expectation from teaching and learning of Science at secondary stage?

- A) To help students to comprehend concepts, principles and laws of Science
- B) To create literary literacy
- C) To appreciate the inter-relationship between Science and art
- D) To acquire academic excellence for competitive examinations

Q.15. For studying science, the knowledge of graphs, equations, ratio & proportion, variation etc is necessary. This is the correlation of science with

- A) Geography
- B) Mathematics
- C) History
- D) Languages

Q. 16: The student's social skills are developed prominently in which of the following method?

- A) Laboratory method
- B) Project method
- C) Inductive deductive method
- D) Lecture cum demonstration method

Q. 17: can help students build mental models of physical, chemical or biological systems.

- A) Textbook
- B) Simulations
- C) Teacher
- D) Field visit

Q. 18: Which of the following aspects should be least considered while planning a science laboratory?

- A) Size of laboratory
- B) Preparation and storage areas
- C) Short term structural implications
- D) Activities in the laboratory

Q. 19: According to NCF 2005 for School Education, Science education at primary level is

- A) General science as a composite discipline
- B) Science and technology as an integrated approach
- C) Environmental studies as an integrated course
- D) Physics, chemistry, biology as separate discipline

Q. 20: Which of the following activity is not run by the science club?

- A) Organizing science fairs
- B) Science exhibition
- C) Celebrating birthdays of science club members
- D) Plantation

Q. 21: While teaching a topic on 'Circular motion' the teacher gives examples of a moving fan, a giant wheel and a sling and helps students to generalize the definition. Teacher is using maxim of teaching.

- A) Simple to complex
- B) Particular to general
- C) Known to unknown
- D) Whole to part

Q. 22: Which of the following method is not student centered yet widely practiced in the science teaching learning process?

- A) Problem solving method
- B) Inductive-deductive method
- C) Lecture cum demonstration method
- D) Project method

Q. 23:enhance learning experiences by enabling experimental manipulations at the click of a mouse.

- A) Concept mapping
- B) Science Laboratory
- C) Virtual laboratories
- D) Teaching aid

Q. 24: Which one of the following is not important in the laboratory method of teaching?

- A) It makes good bonding between the teachers and students
- B) The very tender age students can too learn by this method
- C) Students can develop the argument skills by this method
- D) This is the natural method of making new discovery

Q. 25: Which of the following is **not** a relationship between discipline and subjects as specified by Stengel (1997)?

- A) School subjects and academic disciplines are essentially continuous.
- B) School subjects and academic disciplines are basically parallelly related.

 10. Illustrate any three remedial teaching strategies in science teaching.
-

(2 Hours)

[Total Marks :60]

Instructions:

1. All MCQs and Descriptive Questions are Compulsory
2. MCQs set has 30 questions, each carry 1 Marks ($1 \times 30 = 30$ Marks)
3. Descriptive set has 10 questions, each carries 3 Marks ($3 \times 10 = 30$ Marks)
4. Total Marks 60 Marks
5. Students answering in regional language should refer in case of doubt to the main text of the question paper in English

Multiple Choice Questions

- Q 1 The Commerce Programme is to prepare students for immediate employment and for _____
- A Businessman
 - B Higher education
 - C Good earnings
 - D Becoming independent
- Q 2 While critically analysing Commerce textbook under analysis of physical aspects includes _____
- A Appropriate cover page
 - B Learning assignments
 - C Appropriate vocabulary
 - D Adequate illustrations
- Q 3 Mental Development of pupil begins with _____
- A Concrete objects
 - B Abstract learning
 - C General aspects
 - D Specific learning
- Q 4 A Commerce student should regularly visit _____
- A Library
 - B Commerce lab
 - C Commerce classes
 - D Workshops

- Q 5 Which of the following is the correct sequence of steps in Remediation?
- A Remedial Drill, Teach, Review, Test
 - B Test, Teach, Review, Remedial Drill
 - C Teach, Review, Test, Remedial Drill
 - D Test, Review, Remedial Drill, Teach
- Q 6 The subject matter of the textbook should be developed in a _____
- A Sociological manner
 - B Philosophical manner
 - C Psychological, philosophical and sociological manner
 - D Psychological manner
- Q 7 The dimension of disciplines on which Biglan's work is concentrated is _____
- A Affective
 - B Social
 - C Cognitive
 - D Psychomotor
- Q 8 Strategies of Cooperative learning exclude _____
- A Jigsaw
 - B Think Pair Share
 - C Round Table
 - D Snakes and Ladders
- Q 9 The role of a teacher in a flexible learning environment is to be of
- A A passive listener
 - B A guardian
 - C A friend
 - D A learning facilitator

Q 10 Bad economic dealings, corrupt methods, smuggling and tax evasions are examples of _____
A Good citizens
B Responsible citizens
C Anti-social values
D Good values

Q 11 For making the teaching effective, every teacher must use _____
A Teaching aids
B Chalk board
C Maxims of teaching
D Textbook

Q 12 The following is an in-service mode of professional growth;
A Bachelor of Education
B Masters of Education
C Refresher courses
D Bachelor of Arts (Education)

Q 13 The cultural value of Commerce is evidenced by _____
A Socially desirable ways of thinking and doing
B Multidisciplinary approach
C International approach
D Skill development way

Q 14 In the Commerce club the head of the institution is appointed as _____
A Head in charge
B CEO
C Patron
D Member

- Q 15 Pure disciplines aim at _____
- A Action research
 - B Applied research
 - C Fundamental research
 - D Participative research
- Q 16 Elements of Cooperative Learning excludes _____
- A Face-to-face interaction
 - B Negative interdependence
 - C Collaborative skills
 - D Individual accountability
- Q 17 This principle acknowledges that learning can take place everywhere;
- A Principle of Flexibility
 - B Principle of Learner Centeredness
 - C Principle of Activity
 - D Principle of Individual Differences
- Q 18 MOOC s stand for _____
- A Major Online Open Courses
 - B Massive Online Open Courses
 - C Massive Open Online Courses
 - D Major Open Online Courses
- Q 19 Relationship between knowledge and knowledge seeker is unbiased and objective is the characteristics of _____.
- A Hard-Applied Discipline
 - B Soft-Applied Discipline
 - C Hard-Pure Discipline
 - D Soft-Pure Discipline

Q 20 Teachers have to be skilled in preparing or arranging for the materials which may be used to undertake corrective instruction and _____

- A Give remedy to the learner
- B Make learning temporary
- C Enhancing the quality of learning
- D Makes learning quick

Q 21 Commerce involves exchange of goods and services for _____

- A Trade
- B Profit
- C Exchange
- D Assembling

Q 22 The term workshop is borrowed from _____

- A Art
- B Engineering
- C Science
- D Mathematics

Q 23 "A Commerce teacher while teaching the production of cloth also explains to the student's different geographical factors that are responsible for production of cotton, the nature of the soil, the climate, the rain etc. that lead to the production of cotton." This is an example of _____

- A Correlation to daily life
- B Inter Correlation
- C Intra Correlation
- D Infra Correlation

Q 24 The role of present day teacher has become very challenging, complex and multi-faceted because of knowledge explosion and radical changes occurring in the context of all disciplines. The role a teacher needs to play in this situation is that of a _____

- A Guide
- B Group leader
- C Confidante
- D Secularist

- Q 25 Survey means to form a general idea or _____
- A Inspection of the conditions
 - B Observation of the conditions
 - C Collection of information
 - D Studying the situation
- Q 26 The term discipline originates from the Latin word
- A Discipulus
 - B Opticus
 - C Industrious
 - D Disciplina
- Q 27 The learning resource 'Models' are _____
- A Two dimensional audio visual aids
 - B Three dimensional audio visual aids
 - C Two dimensional visual aids
 - D Three dimensional visual aids
- Q 28 The subjects which are compulsorily studied by students of CBSE opting for Commerce at Higher Secondary level are _____
- A Accountancy, Business Studies, Economics & English
 - B Accountancy, Business Studies, Economics & Math
 - C Accountancy, Economics, Math & English
 - D Accountancy, Business Studies, Math & English
- Q 29 The Indian Universities/ Institutions and Colleges offers admission into B.Com/ M.Com degree programs or research programs under the guidelines laid by UGC, Ministry of Commerce and _____
- A NCERT
 - B NCTE
 - C SCERT
 - D MHRD

- Q 30 One of the advantage of blended learning _____
- A Computer based
 - B Flexibility
 - C Teacher centred
 - D Depended on internet

DESCRIPTIVE QUESTIONS

- Q 1 Explain any 3 characteristics of academic disciplines.
- Q 2 Give any three objectives of teaching Commerce at Higher Secondary level.
- Q 3 State the role of teachers in inculcating the value of Global Citizenship among students while teaching Commerce.
- Q 4 Illustrate the maxim 'Known to Unknown' in Commerce teaching.
- Q 5 State the significance of Commerce club.
- Q 6 Explain the steps of co-operative learning strategy Think-Pair-Share.
- Q 7 Give any three Academic criteria of a good Commerce textbook.
- Q 8 Explain the correlation of Commerce with Geography
- Q 9 "Project method helps the Commerce teacher in integrating classroom experiences with real life." Give reasons
- Q 10 How can a Commerce teacher grow in his/her profession?
-

Time: 2 Hrs

Instruction:

Marks: 60

1. All MCQ and Descriptive Questions are compulsory.

MCQs ENGLISH

English Question No.1

- Option A
- Option B
- Option C
- Option D

Shaping of behaviour through reward and punishment is _____
Observational learning
Social learning
Operant conditioning
Classical conditioning

English Question No.2

- Option A
- Option B
- Option C
- Option D

Which of the following is a characteristic of students with giftedness?
Keen power of observation
Rigid thinking
Like repetitive tasks
Poor vocabulary

English Question No.3

- Option A
- Option B
- Option C
- Option D

When learners memorize new information without relating to previous knowledge, it is called as _____
Meaningful learning
Simple learning
Rote learning
Classical learning

English Question No.4

- Option A
- Option B
- Option C
- Option D

Identify the correct statement .
Learning is modification of behaviour through practice.
Learning is temporary.
Learning occurs only till childhood.
Learning is only concerned with cognitive domain.

English Question No.5

- Option A
- Option B

----- transfer occurs when stimulus conditions in the transfer context are sufficiently similar to those in a prior context of learning.
High Road
Neutral

Option C
Option D

Low road
Zero

English Question No.6

Option A
Option B
Option C
Option D

Bruner introduced a learning method called as _____
Motor Learning
Perceptual learning
Problem solving learning
Discovery Learning

English Question No.7

Option A
Option B
Option C
Option D

Giving cues to children and offering support as and when needed was suggested by _____
Bandura
Thorndike
Ausubel
Vygotsky

English Question No.8

Option A
Option B
Option C
Option D

_____ refers to a situation where the learner is more active than an average learner.
Dyslexia
Autism
Dysgraphia
Hyperactivity

English Question No.9

Option A
Option B
Option C
Option D

Bandura's Theory of Social learning focuses on _____
Learning through conditioning
Trial and Error learning
Learning through imitation
Insightful learning

English Question No.10

Option A
Option B
Option C
Option D

Which of the following is a characteristic of attention?
Attention is without focus.
Attention is constant and does not shift.
Attention is selective.
Attention is same for all individuals.

English Question No:11

Option A
Option B
Option C

A ten year old child leaves words incomplete, omits letters from words or words from sentences while writing. This could be a case of _____
dyslexia
dysgraphia
dyscalculia

Option D

obesity

English Question No.12

- Option A
- Option B
- Option C
- Option D

Which of the following will help in learning for transfer?
Teaching in abstract contexts
Use of rote learning
Giving minimal examples
Relating learning to real life

English Question No.13

- Option A
- Option B
- Option C
- Option D

_____ is a feature of differentiated instruction.
Rigidity of learning experiences.
Having same experiences for all learners
Flexibility in learning experiences
Teacher centredness

English Question No.14

- Option A
- Option B
- Option C
- Option D

Sohan works hard to get a medal in sports. This is an example of _____ motivation .
Intrinsic
Extrinsic
Limited
Directionless

English Question No.15

- Option A
- Option B
- Option C
- Option D

Which of the following is true about multicultural education?
Multicultural education is only for students with learning difficulties.
Multicultural education values cultural differences

Instructions: i) All questions are compulsory- MCQ and Descriptive.
ii) Each MCQ carries 1 mark - $1 \times 30 = 30$ marks
iii) Each Descriptive Question carries 3 marks - $3 \times 10 = 30$ marks

MCQ's

Q.No.1

- A
- B
- C
- D

Language is a system of _____.
Habits
Human body
Symbols
Numbers

Q.No.2

- A
- B
- C
- D

Concept mapping is useful to a language learner because
it depicts important images
it is a flow chart
it helps in representing information in a graphic manner.
it captures the central idea

Q.No.3

- A
- B
- C
- D

Correlation between English and Science subject is an example of _____ correlation
Internal correlation
Intra correlation
Incidental correlation
External correlation

Q.No.4

- A
- B
- C
- D

The speaking skill of the learners can be assessed when learners will
Listen to the teacher reading the play
Enact the play
Get a detailed explanation about the play from the teacher
Read the play silently

Q.No.5

- A
- B
- C
- D

Which of the following is not a challenge for teaching English language?

Teacher-Centred Approach
Students having varied levels of competence.
Inadequate training facilities.
Learner-Centred Approach

Q.No.6

- A
- B
- C
- D

Nature of knowledge in Soft-Pure Disciplines are:
cumulative and concerned with universal phenomena
on application of theories
concerned with particular happenings
utilitarian in nature

Q.No.7

- A
- B
- C
- D

Which of the following best describes a blog?
A graphical representation
A computer game
An online journal
A talking picture

84672

Q.No.8

- A
- B
- C
- D

Which theorist hypothesized that children have inbuilt learning capacity to learn language?

- Chomsky
- Freud
- Skinner
- Berkley

Q.No.9

- A
- B
- C
- D

The principles of language learning were given by _____.

- H.E Palmer
- H.E. Washington

- discussion technique.

Q.No.11

- A
- B
- C
- D

The language that is more demanding and complex is _____.

- Social
- Informal
- Academic
- Regional

Q.No.12

- A
- B
- C
- D

What amongst the following emphasize processes and protocols?

- Hard-Pure Disciplines
- Hard-Applied Disciplines
- Soft-Pure Disciplines
- Soft-Applied Disciplines

Q.No.13

- A
- B
- C
- D

Statement 1-R.K. Narayan is a great novelist and a leading writer of short stories.

Statement 2-The 'Guide' received the Sahitya Academy Award.

Statement 1 is correct and statement 2 is wrong.

Statements 1 and 2 are correct.

Statements 1 and 2 are wrong.

Statement 1 is wrong and statement 2 is correct.

Q.No.14

- A
- B
- C
- D

A disadvantage of the use of ICT in assessment is:

- Construction of student assessment tasks
- Plagiarism of student assessment tasks
- Delivery of student assessment tasks
- Storage of student assessment tasks

Q.No.15

- A
- B
- C
- D

One of the maxims of teaching English is
Whole to part
Part to whole
Logical to psychological
From unknown to known.

Q.No.16

- A
- B
- C
- D

The approach that lays great emphasis not only on grammatical competence but also on social and cultural appropriateness is
Constructivist Approach
Structural Approach
Communicative Approach
Situational Approach

Q.No.17

- A
- B
- C
- D

| Question 10 | Elaborate the features of Formal and Consultative Registers. | 3 marks |

TIME : 30 Min.

MARKS : 30

N.B.

1. All questions are compulsory. (MCQ and Descriptive)
2. MCQ: There are 30 questions of 1 Mark each. (1 x 30 =30 Marks)
3. Descriptive: There are 10 questions of 3 Marks each. (3 x 10 =30 Marks)
4. Total marks are 60.

English question NO.1	----- discipline searches for patterns and uses them to formulate new inferences and study of quantity.
Option A	Mathematics
Option B	Natural Sciences
Option C	Social sciences
Option D	Business

English question NO.2	----- discipline emphasizes on products and techniques.
Option A	Hard -applied
Option B	Hard -pure
Option C	Soft- pure
Option D	Soft -applied

English question NO.3	Which of the following is not a feature of academic disciplines?
Option A	Body of specialized knowledge
Option B	Has theories and concepts
Option C	Specific terminology
Option D	Same research methodology

English question NO.4	Below are given some statements related to the nature of mathematics. Identify the odd one out
Option A	Mathematics has structure
Option B	Mathematics is concrete
Option C	Mathematics is logical
Option D	Mathematics has precision

English question NO.5	Which value includes accuracy, simplicity, the concentration of mind in mathematics
Option A	Intellectual value
Option B	International value
Option C	Social value
Option D	Disciplinary value

English question NO.6	As per NCF 2009, Students should explore mathematics as _____ in higher secondary level.
Option A	Discipline
Option B	Subject
Option C	Course
Option D	Syllabus

English question NO.7	Mathematics instills imagination and systematic reasoning. Which value of teaching Mathematics does this statement refer to?
Option A	Cultural value
Option B	Intellectual value
Option C	International value
Option D	Social value

English question NO.8	The activities in the Mathematics laboratory mainly instill _____ among the students
Option A	Moral value
Option B	Intellectual value
Option C	Scientific value
Option D	Utilitarian value

English question NO.9	Identify the statement that refers to the social value of teaching Mathematics
Option A	Understanding how buildings are constructed
Option B	Organisation and Maintenance of society
Option C	Conforming to rules and regulations
Option D	Understanding symmetry

English question NO.10	Inductive and Deductive reasoning in Mathematics refers to _____ nature of Mathematics
Option A	Logical
Option B	Structure
Option C	Quantity
Option D	Abstract

English question NO.11	_____ provides a framework for the course that is of real value to students.
Option A	Concentric Approach
Option B	Topical Approach
Option C	known to unknown
Option D	Particular to General

English question NO.12	_____ keeps Complete Concentration on a particular topic in mathematics.
Option A	Concentric Approach
Option B	Topical Approach
Option C	known to unknown
Option D	Particular to General

English question NO.13	_____ maxim is based on gestalt theory .
Option A	Known to Unknown
Option B	Simple to Complex
Option C	Whole to Part
Option D	Concrete to Abstract

English question NO.14	_____ is a meaningful division of content into units, sub-units and single concepts.
Option A	Pedagogical Analysis
Option B	Unit planning
Option C	Content analysis
Option D	Science of teaching

English question NO.15	Greater opportunity for revision of topic is possible in _____
Option A	Topical approach
Option B	Whole to part approach
Option C	Concentric approach
Option D	Thematic approach

English question NO.16	The knowledge of different _____ helps the teacher to teach Systematically
Option A	Maxims
Option B	Steps
Option C	Formulas
Option D	Methods

English question NO.17	Which Technique of teaching Mathematics is based on Psychological principles such as 'learning by doing' and 'law of exercise'?
Option A	Supervised Study
Option B	Group Study
Option C	Drill Work
Option D	Brainstorming

English question NO.18	Which is not a step of the procedure for the Inductive method?
Option A	Presentation of Specific Examples
Option B	Observation
Option C	Generalisation
Option D	Application of formula

English question NO.19	Which method in teaching mathematics is complementary to the inductive method?
Option A	Deductive
Option B	Analytic
Option C	Project
Option D	Lecture

English question NO.20	The problem-Solving method involves _____ thinking in students.
Option A	Experience
Option B	Reflective
Option C	Passive
Option D	Illogical

English question NO.21	GeoGebra is interactive software that does not include _____.
Option A	Geometry
Option B	Algebra
Option C	Calculus
Option D	Geography

English question NO.22	The main objective of mathematics club is developing _____ among students.
Option A	Reading skills
Option B	writing skills
Option C	interest in mathematics
Option D	presentation skills

English question NO.23	_____ helps the teachers and students to get acquainted with the limits and boundaries of content.
Option A	Worksheet
Option B	Assignment
Option C	Textbook
Option D	Scrap Book

English question NO.24	For continuous professional development, mathematics teacher should be
Option A	Member of Science Club
Option B	Member of School Committee
Option C	Member of a professional organisation
Option D	Member of parent-teacher association

English question NO.25	_____ Mathematician contributed in concepts, parallel line, triangles etc.
Option A	Euclid
Option B	Aryabhatta
Option C	Pythagoras
Option D	Ramanujan

English question NO.26	Continuous Professional development is needed for a Mathematics teacher to
Option A	get more salary
Option B	get promotion
Option C	change job
Option D	play ones role as a teacher effectively

English question NO.27	The famous Ramanujan number is
Option A	1729
Option B	1792
Option C	1972
Option D	1279

English question NO.28	'The Elements' the treatise on mathematics was a prominent contribution by which the following Mathematician ?
Option A	Euclid
Option B	Ramanujan
Option C	Pythagoras
Option D	Aryabhatta

English question NO.29	_____ is among the mathematicians who brought new deductions and theories in mathematics and astronomy.
Option A	Aryabhatta
Option B	Ramanujan
Option C	Euclid
Option D	Pythagoras

English question NO.30	Find the odd man out with respect to the advantages of mathematics textbooks.
Option A	Brings uniformity in teaching
Option B	Freedom to teachers to choose content matter
Option C	Saves time and energy of teachers
Option D	Sets limits of subject matter

- OPTION C History is static
- OPTION D History is the study of man

English Question no 8 As per Historical Thinking Concepts _____ refers to understanding the context that shaped people's lives and actions in the past

- OPTION A Continuity and change
- OPTION B Historical significance
- OPTION C Primary source evidence
- OPTION D Historical perspective

English Question no 9 The pupil should be able to locate place on map is _____ based objective of teaching History

- OPTION A Knowledge
- OPTION B Practical skills
- OPTION C Problem solving
- OPTION D Critical thinking

English Question no 10 Learning about customs, beliefs, traditions of different civilizations inculcates _____ value in students

- OPTION A Cultural Value
- OPTION B Vocational Value
- OPTION C Political Value
- OPTION D Intellectual Value

English Question no 11 Which of the following is the external characteristic of a History textbook?

- OPTION A Presentation of content
- OPTION B Printing
- OPTION C Organisation of content
- OPTION D Suitable language

English Question no 12 The main objective to organize field trip by a History teacher is

- OPTION A Providing opportunity for entertainment
- OPTION B Evaluating the quality of classroom teaching program
- OPTION C Providing an opportunity to learn the correct pronunciation
- OPTION D Providing an opportunity to learn historical facts

English Question no 13 A _____ is a way of displaying a list of events in chronological order.

- OPTION A Timeline
- OPTION B Models
- OPTION C Films
- OPTION D Maps

English Question no 14 The word museum is derived from the Greek word _____

- OPTION A Museument
- OPTION B Museum art
- OPTION C Mouseion
- OPTION D Museionly

- English Question no 15 Documentaries refers to _____
- OPTION A Visual resource
- OPTION B Archives resource
- OPTION C Print resource
- OPTION D Audio-visual resource
- English Question no 16 The use of maps in the teaching of historical events indicates correlation of _____
- OPTION A History and Geography
- OPTION B History and Mathematics
- OPTION C History and Craft
- OPTION D History and Literature
- English Question no 17 When the teacher uses models, timelines in the teaching of history she is following the maxim _____
- OPTION A Known to Unknown
- OPTION B Simple to Complex
- OPTION C Concrete to Abstract
- OPTION D Particular to General
- English Question no 18 Citizenship, rights, duty, legislature, judiciary are the examples of _____ in Political Science
- OPTION A Generalization
- OPTION B Concepts
- OPTION C Values
- OPTION D Integration
- English Question no 19 Which Maxim is based on the assumption that the students know something?
- OPTION A Particular to General
- OPTION B Concrete to Abstract
- OPTION C Simple to Complex
- OPTION D Known to Unknown
- English Question no 20 _____ refers to a relationship between two or more concepts
- OPTION A Generalization
- OPTION B Concepts
- OPTION C Context
- OPTION D Conjunction
- English Question no 21 In _____ method of teaching History, the teacher can ask students to narrate the life history of great legends.
- OPTION A Lecture cum Discussion
- OPTION B Story Telling
- OPTION C Social Inquiry
- OPTION D Project based Learning

English Question no 22 Which of the following is a merit of lecture cum discussion method

OPTION A Provides opportunity for sharing of ideas
OPTION B It can be monotonous
OPTION C Leads to a teacher centric classroom
OPTION D Loss of student's attention

English Question no 23 _____ method of teaching is an outcome of John Dewey's pragmatic educational philosophy?

OPTION A Story Telling
OPTION B Lecture cum Discussion
OPTION C Round Robin
OPTION D Project based learning

English Question no 24 It increases understanding as students investigate on their own. This is the merit of _____

OPTION A Story Telling
OPTION B Buzz
OPTION C Social Enquiry
OPTION D Lecture cum Discussion

English Question no 25 All of the following are the merits of Co-operative learning pedagogy except:

OPTION A Active student participation
OPTION B Time consuming
OPTION C Promotes critical thinking
OPTION D Exchange of ideas

English Question no 26 A History teacher faces _____ as a pedagogical challenge in teaching History

OPTION A Global competitiveness
OPTION B Multicultural classroom
OPTION C Lack of ICT facilities
OPTION D Bias in textbook

English Question no 27 One of the ways for the History teacher's professional growth is _____

OPTION A Depending only on textbook
OPTION B Contributing in journals and publications
OPTION C Continuing with traditional pedagogical approaches
OPTION D Being involved in administrative office work

English Question no 28 _____ relates to the technological challenge faced by a History teacher

OPTION A Lack of software in regional languages
OPTION B Lack of correlation
OPTION C Global competitiveness
OPTION D Outdated content in textbooks

Paper / Subject Code: 47605 / History

English Question no 29 Ensuring the development of young generation towards sustainable development is an example of _____
OPTION A Technological challenge
OPTION B Social challenge
OPTION C Pedagogical challenge
OPTION D Globalization challenge

English Question no 30 All of the following are the qualities of a good history teacher except:
OPTION A Participate in subject relevant seminars
OPTION B Mastery of the subject
OPTION C Adopt exam centric teaching
OPTION D Lifelong learner
