President - Wildlife Conservation Trust

Date & Day: 10th April, 2024, Wednesday

Time: 11 am - 12:30 pm

Venue: Mun Auditorium, 5th floor

ROYAL COLLEGE OF EDUCATION AND RESEARCH FOR WOMEN

A REPORT ON A TALK ON WILDLIFE PROTECTION

NAME OF PROGRAM: - A TALK ON WILD LIFE PROTECTION

DATE: - 10 APRIL 2024

VENUE: - MUN AUDITORIUM 5TH FLOOR

TIME: - 11:00am to 1:00am

NO OF PARTICIPANTS: 50

RESOURCE PERSON: DR.ANISH ANDHERIA

COLLABORATIVE: It was collaborated with the Royal College of Art, Science, and Commerce (Nisarg: The Nature Club)

COORDINATOR: Assistant Professor Ms. Mandrita Mitra

OBJECTIVES

Awareness: To raise awareness about the importance of preserving natural habitats and biodiversity.

To educate students about the interconnectedness of ecosystems, the impact of human activities on wildlife, and the consequences of habitat destruction can inspire action and promote responsible behaviour towards wildlife conservation.

Skills Development: To equip individuals with the necessary skills and knowledge to actively participate in wildlife protection efforts.

To empower students with the skills to identify and address environmental threats, they can become effective steward of wildlife and contribute meaningfully to conservation initiatives.

REFLECTION: In the program, we have learned about the importance of nature and wild life and the harmful impact of human activities on nature and wild life. We humans intentionally or unintentionally harms the nature that will have negative effect that we have to face in near future and even we are facing today. We understand the importance of preserving wild life. We got the knowledge about the reason behind the project tiger initiative taken by Indira Gandhi. We learned about different species of animals. The guest speaker explained us about the food chain and how we humans are disturbing the food chain for various reason. We have to understand the importance of wild life and natural environment and contribute towards the protection and conservation of wild life and nature.

LEARNING OUTCOMES ACHIEVED

The students gain in depth knowledge regarding preservation and conservation of nature

The students understand the laws of nature

The students gain knowledge about food chains and biodiversity.

FEEDBACK OF THE STUDENTS

Fatema: - The session was informative well organized help me to understand about the importance of wild life conservation and ways individual have to take to protect the wild life.

Mahvish: The session was informative and enriching I had learned about wild life conservation, wild life corridor and got the knowledge about the project tiger. The guest speaker explained us about different species of animals. He had also explained us about importance of preserving the wild life.

Manisha: - Knowledgeable session helps to enhance our understanding about the wild life conservation and learned about food chains disturbance of wild life due to various human activities such as development poaching etc. I had learned the ways individual can contribute to protect the wild life. Overall session was informative and well organized that increase our knowledge.
