

ROYAL COLLEGE OF EDUCATION AND RESEARCH FOR WOMEN
A REPORT OF THE TALK ON E-WASTE MANAGEMENT

NAME OF THE EVENT: A Talk on E-Waste Management

DATE: 12/04/2024

TIME: 9.40 am to 10.00 am

VENUE: Multipurpose Hall

NO OF PARTICIPANTS: 25

RESOURCE PERSON: Ms. Mary Mukherjee (TIMES OF INDIA)

COORDINATOR:

Asst. Prof. Ms. Mandrita Mitra

OBJECTIVES:

Awareness:

To raise awareness about the environmental and health impacts of electronic waste, highlight the importance of proper disposal methods, and promote strategies for reducing, reusing, and recycling e-waste to minimize its negative effects on the planet and human health.

Promote sustainable practices:

Encouraging students to adopt recycling and responsible disposal methods of e-waste.

REFLECTION:

The recent talk hosted by the Times of India team on E-waste management provided a comprehensive view of the challenges and solutions associated with handling electronic waste. Throughout the talk, several key points emerged, shedding light on the urgent need for sustainable practices in this realm. Initially, the talk underscored the alarming scale of the e-waste problem, emphasizing the exponential growth of discarded electronic devices worldwide. With the rapid pace of technological advancements, the lifespan of electronic gadgets is shrinking, leading to a surge in obsolete devices being disposed of improperly.

Moreover, the environmental and health implications of mishandling e-waste were thoroughly addressed. Participants also highlighted the harmful chemicals and heavy metals present in electronic devices, which can contaminate soil, water, and air if not disposed of correctly. One of the most compelling aspects of the talk was the emphasis on individual responsibility in e-waste management.

In conclusion, the Times of India's discussion on e-waste management offered valuable insights into the multifaceted nature of the issue and the collaborative efforts necessary to address it effectively. By raising awareness, fostering innovation, and promoting responsible consumer behavior, we can collectively work towards a more sustainable future, where electronic waste is managed responsibly and its impact on the environment and public health is minimized.

LEARNING OUTCOMES: At the end of the event, students will be able to:

- Understand the importance of e-waste management
- Take initiatives in e-waste management

FEEDBACK FROM THE STUDENTS:

Ms. Riya: It was very informative and inspired me in e-waste management.

Ms. Manisha: The talk shed light on proper disposal of e-waste, which is important to protect the environment and human beings from its ill effects.

Ms. Atiyya: The talk motivated me to become more proactive in advocating for e-waste management in my community.
