

ROYAL COLLEGE OF EDUCATION AND RESEARCH FOR WOMEN

Exhibition Visit Report – [Sankalp]

Date: 30/08/2025

Venue: Royal H.A. Girls' School

Time: 10:00 a.m. onwards

No. of Participants: 13

Objectives:

1. To observe the execution of a science exhibition involving multiple subjects.
2. To understand how students of different standards showcase creativity and innovation.
3. To study presentation methods and communication strategies used by students.
4. To connect theoretical knowledge with practical applications through models and demonstrations.
5. To gain insights into experiential and activity-based learning for future teaching practices.

Reflection:

The B.Ed. students of Royal College of Education and Research for Women visited the exhibition Sankalp organized by Royal H.A. Girls' School on 30th August 2025. The exhibition included a wide range of exhibits prepared by students from various standards, integrating different subjects into meaningful presentations.

The Science section showcased renewable energy projects, water conservation models, and eco-friendly innovations. The Social Science section highlighted India's history, culture, and sustainable development themes. The Mathematics corner presented puzzles, real-life applications, and creative models, while the Art and Craft section displayed paintings, handicrafts, and decorative pieces.

The exhibition reflected systematic organization, creativity, and teamwork. The confidence and clarity with which the school students presented their exhibits were commendable. The event successfully demonstrated how knowledge, skills, and values can be integrated in an engaging and practical manner.

Learning Outcomes:

1. Enhanced understanding of the role of exhibitions in experiential and project-based learning.
2. Awareness of the importance of creativity, teamwork, and innovation in the learning process.
3. Insights into effective presentation, communication, and leadership skills developed by students.
4. Recognition of how classroom knowledge can be applied to real-life situations.
5. Inspiration to adopt innovative and activity-oriented methods in future teaching practices.

Feedback:

Fatima - The exhibition was well-organized and reflected systematic planning.

Neomi - The school students displayed confidence, clarity, and creativity while presenting their exhibits.

Asmita- The event provided valuable insights into innovative teaching-learning strategies.
