फळझाडे लावण्याचा  
संकल्प

उद्घाटक  
मा.योगेश सागर  
आमदार,  
चारकोप विधानसभा

### OBJECTIVES:

1. To actively support the Mission Green Mumbai initiative by participating in large-scale plantation drives.
2. To contribute towards environmental sustainability and urban afforestation.

3. To instil responsibility among students for protecting and conserving nature.
4. To strengthen collaboration between educational institutions, government bodies, and NGOs for environmental causes.
5. To motivate the younger generation to adopt eco-friendly practices and contribute to a greener future.

### **REFLECTION:**

The Royal College of Education and Research for Women received a moment of great honor and pride on 17<sup>th</sup> August 2025 by being felicitated for its active participation in the Mission Green Mumbai Plantation Drive at Jankalyan Nagar Government Hospital. This initiative successfully marked the plantation of 12,000 trees, symbolizing a collective step towards a healthier environment.

The event was graced by the presence of Honourable MLA Shri Yogesh Sagar, who appreciated and awarded the participating teams and colleges for their valuable contribution. The RCERW delegation of six representatives accepted the award with gratitude, representing the entire institution's dedication to environmental causes.

Special thanks were extended to Shri Subhajt Mukherjee, founder of Mission Green Mumbai, for warmly including our institution in this noble mission. The program not only recognized the contribution of institutions but also celebrated the collective spirit of creating a greener Mumbai through a plantation drive and Guava sapling distribution. The team of RCERW took a gala tour of a patch of MIYAWAKI FOREST walk where the previous batch of RCERW put their effort as community service in the growth and development of the forest patch.

### **LEARNING OUTCOMES:**

1. Students understood the importance of afforestation and sustainable living.
2. They developed a sense of responsibility towards environmental protection.
3. The event inspired students to take part in future eco-friendly initiatives.
4. They realized the power of collaboration between government, NGOs, and educational institutions.
5. Students gained pride in being change-makers contributing towards climate action.
6. They experienced the value of recognition and appreciation for social service.

### **FEEDBACK:**

1. **Fatima:** Receiving the award on behalf of the college was a truly honourable moment, which inspired us to continue contributing to green initiatives.

2. **Sakshi:** The event was well-organized, and the recognition given to institutions reflected the importance of collective action for the environment.
